

## ABOUT US

We offer a variety of living and rehabilitation options designed to meet your individualized level of care including skilled nursing, assisted living, memory care, and independent living. We partner with specialists and family members alike to create solutions designed to enrich and improve our residents' lives while our team of professionals work hard to promote independence and provide superior care. You can count on us being here for as long as you require, no matter what your need or care.

## LEVELS OF CARE

**Skilled Nursing** Our trained healthcare professionals offer a wide range of nursing services for residents requiring 24-hour nursing care including physical, speech, and respiratory therapy, nutritional support, and IV treatments. Whether you are looking for short-term or long-term care, we strive to create a supportive and comforting environment to help each patient achieve their goals and live life to the fullest.

**Memory Care** Our memory care community features secure settings and supportive services in a warm and welcoming environment, ensuring residents feel comfortable and at ease, allowing them to live a meaningful and engaging life.

**Assisted Living** We offer personalized care for those residents who need some assistance with activities and daily living, but do not require full time care. We provide an added level of support so residents can do the things they love, with the security of having a community of people they trust.

**Independent Living** Independent Living offers the convenience of community living, with the benefits of being in your own home. Daily responsibilities such as maintenance, cooking, and cleaning are handled by us, so you can do more of what you love.

## FAQS

### What forms of payment does the facility accept?

The facility accepts Medicaid, Medicare, and private pay. The facility will also bill third party insurance.

### Do you provide counseling for residents?

We have a social worker who provides ongoing emotional support and crisis intervention. Outside consultants are available to provide individual psychotherapy, as well as psychiatric evaluations and treatment.

### Do you offer private rooms?

Yes, we offer private and semi-private rooms.

### Do you offer exercise classes?

Our restorative therapy program provides one-on-one range of motion, strengthening, and ambulation workouts throughout the day.

### Do you provide transportation?

Transportation is available for medical appointments. Family members are encouraged to meet us at the doctor's office when possible.

### What is your policy regarding visiting hours?

Family members can visit any time as long as visitation in a resident's room does not interfere with the roommate's schedule or privacy.

### What type of activities do you offer?

Our full-time activity director schedules a variety of activities including gardening, music programs, arts and crafts, games, cooking, and religious services that provide the residents with opportunities to socialize, learn, be creative, and interact with staff, family, and volunteers.

### Do you have a beauty shop?

Yes, we have a full-service salon and our beautician is in the facility on scheduled days each week. Services are provided for a fee.

### Do you provide Hospice care?

We have contacts with several Hospice providers in the area so your loved one is provided with end-of-life choices and support.

### Do you have internet access?

Wireless internet access is available in the building for residents.
